Assessment

This assessment is composed of four tasks.

These may be carried out at different times if necessary.

Learners must complete **all** the tasks from one paper for secure achievement.

The date the task is completed should be recorded on the cover sheet.

Method

- If learners are to complete all of the tasks at one time, give out the complete assessment pack.
- If learners are to complete each task separately, only give out the task to be completed.
- Allow learners to complete the tasks independently without any further support.
- At the end of the assessment, collect the learners' work and store securely.

In order to gain a pass at this level, learners must achieve each assessment criterion at least once. They should also gain a numerical mark of at least $^{14}/_{21}$ across the paper in order to show evidence of secure achievement across a range of tasks.

The achievement of each assessment criterion should be marked at the end of each task, and on the front cover once the assessment has been completed.

The date the assessor marks the task should be recorded on the cover sheet, together with the assessor's name and signature.
