

Review of CAVC facilities

Activity 1: Find out information!

You are going to write a review for new students who are due to start college.

Before you write a review about CAVC facilities, gather information about the various facilities, at 1 CP and the main campus (purpose, opening times, staff, specific details, etc.). Ask questions around the campus to staff / students. Then make notes below.

(You can divide the group into teams to find out about different facilities).

Facilities	Details (times, staff, place)	Positive	Negative
Learning and Skills Centre			
The canteen			
REACH			
Students Services			
The gym			
The shop			
The Atrium			
1 Canal Parade			

Activity 2: Share the information you found out with your classmates!

Discuss your findings with the other students (you can also update your information in the table).

Activity 3: Plan!

Decide how to organise your ideas and write a plan for your review.

Activity 4: Write a review that will appear on the CAVC website about students' views of the college facilities (about 170 words).
